CloudNativeCon

OPEN SOURCE SUMMIT

China 2019

- Adding an [emeritus field](#) in OWNERS files.
- Reviews won't be requested if the reviewer has a ["Busy" GitHub status](#).
- Upcoming: tooling to automate detection of inactive reviewers/approvers
- Upcoming: [detect non org members](#) while adding users in OWNERS files.

Streamlining and enabling automation across all orgs:

- Fejta-bot issue lifecycle automation
- Needs-rebase plugin to automatically detect PRs which need update
- Trigger plugin to add *needs-ok-to-test* label
- Restricting @mentions in commit messages
- Welcome message to new contributors

Other tooling

Gitops for community management

- Created more than 30 new repos
- Processed membership requests for the Kubernetes GitHub orgs
- Team management through config in [kubernetes/org](https://kubernetes.io/org) (please use the config, not the GitHub UI)

Subproject websites

- Process for creating websites for subprojects coming soon
- GitHub admin team will help in setting up netlify configuration
